## **Angle House Orthodontics Announcement**

It is with great reluctance that we wish to inform you that subsequent to a health issue earlier in the year, Dr Brian McGuinness will retire from practice at Angle House Orthodontics as of **1<sup>st</sup> August 2013**.

Dr McGuinness founded Angle House Orthodontics and has been treating patients in the Balwyn and surrounding areas for over 25 years. He has found his career most rewarding and appreciates the wonderful opportunity he has had to work with so many delightful patients, families and dentists.

Angle House will continue to provide the same level of orthodontic excellence to all of our existing and future patients under the care of Dr Gopal Kataria, who has owned and been treating patients at Angle House Orthodontics for the past 3 years. Dr Kataria is an experienced orthodontist who specialises in Invisalign, braces and early intervention techniques.

We hope that you will join us in wishing Dr McGuinness all the very best for his retirement and we thank you for your understanding as we continue all of our patients' treatment under the professional care of Dr Kataria.

Yours Sincerely

**The Team at Angle House**
