

**** If you are going away on a long drive during the holiday season—Ask our staff for Audio CD's of Roald Dahl's stories if your child enjoys these books.**

NEWSLETTER VOLUME 1

We would like to welcome you to the first edition of our newsletter.

TEAM NEWS

- We take great pleasure in welcoming Dr Gopal Kataria (specialist orthodontist) who has joined the team at Angle House Orthodontics. Dr Kataria's extensive experience and specialised knowledge of Invisalign will further expand the services that our practice provides.
- Melanie has joined us as our newest member of staff. Melanie is a junior dental assistant, who is currently undertaking her certificate III in dental assisting.
- Kelly married her fiancé Murray on Saturday 4th September at Sails on the Bay in Elwood. Which was followed by a honeymoon to the beautiful Vanuatu.
- Rachael has been appointed our new Practice Manager.
- We have created a new website. Make sure you visit us at www.anglehouseorthodontics.com.au

Prizes To Be Won

Brush, Brush, Brush

Every month we are rewarding our patients with \$15 iTunes gift cards and movie vouchers!

Your Dental Hygienist Jane will nominate you to be in the draw if you have the best oral hygiene for the month!

P.S Remember to floss and use your little yellow interdental brush!!!

**** COMING UP: 'Care to share'.**

Ask more at reception for this special offer. **

DAMON BRACES

Here at Angle House Orthodontics we keep up with the latest technology with regards to types of brackets out on the market.

The Damon System is an innovative combination of passive self-ligating brackets, high-tech archwires and minimally invasive treatment protocols that work together as a low-friction, low-force system. The end result is clinically proven performance that includes;

- faster treatment time,
- fewer appointments,
- improved patient comfort and
- exceptional results

INVISALIGN

Invisalign is the clear way to straighten teeth without braces, using aligners. Dr Kataria will decide if you are a good candidate for this type of treatment as not everyone can be successfully treated using this technique. It is highly successful in those patients who have crooked teeth with well matched upper and lower jaws and a bite within acceptable limits.

In summary invisalign is:

- Invisible way to straighten your teeth
- Series of clear, removable, custom made aligners
- Uses no metal wires or brackets
- Custom-made for comfort

ANGLE HOUSE ORTHODONTICS WOULD LIKE TO WISH EVERYONE A MERRY CHRISTMAS AND A HAPPY NEW YEAR!
