

## To our patients, parents and friends of Angle House Orthodontics

Further announcements have been released from our governing bodies (ADA and ASO) which will now affect the way we see our patients during stage 4 restrictions. This decision has been made to limit non-essential outings from your residences.

**In keeping with the new guidelines, as of today Thursday 6<sup>th</sup> August we will be able to only see patients with critical orthodontic requirements in the practice.** All other patients will be seen via virtual consultation or where appropriate, will have their appointments rescheduled to a time when stage 4 restrictions are lifted.

Our team will contact patients with appointments booked over the coming weeks (in appointment date order) to advise you of any changes necessary. We appreciate your understanding and patience as our front desk team work with Dr Kataria to determine the best management of each individual patient's treatment.

We would like to assure all our patients that every effort will be made to stay in contact with you during this time. We will be regularly placing updates on our website and social media and invite you to follow us on these platforms to stay informed.

We have informative videos to help you in this time on our **facebook page** <https://www.facebook.com/anglehouseortho/>. Alternatively, phone us on 9817 6427 or email [info@anglehouseorthodontics.com.au](mailto:info@anglehouseorthodontics.com.au).

We sincerely thank you for your understanding and patience while we work through looking after our patient community and look forward to seeing everyone back safe and well in the near future.

The team at Angle House Orthodontics
